GENERAL REMARKS AND EXPLANATIONS.

The total weight of traffic carried during the month under review was 25,652'03 tons against 16,476'45 tons lifted during the corresponding period last year; the net result being an increase of 9,175'58 tons or 55'69 per cent. The increases are principally made up under the heads of Food-grains, Miscellaneous, Piece-goods, Railway material, Salt and Tea, while the decreases have been caused by a falling off in Ginger, Jute, Seed and Tobacco.

INCREASES.

Ale	58 tons.
The increase, though small, shews that the demand for Sonala beer is increasing.	
Food-grain	10,316'09 tons.
A brisk traffic in paddy and rice as usual accounts for this satisfactory result.	
Miscellaneous	127'26 tons.
This is principally due to large consignments of garden machinery having been despatched to Tea districts.	
Piece-goods	30'54 tons.
Markets in the interior are being stocked against the rains, and a corresponding falling off later on is expected.	
Railway material	1,928'95 tons.
Increase is due to larger quantities of material for the Assam-Bihar State Railway and Loco. coal having been carried this month than in the corresponding period last year.	
Salt	24'14 tons.
The explanation given against piece-goods applies to salt also.	
Sugar	4'12 tons.
The month's working represents an increase of 4'78 per cent.	
Tea	67'67 tons.
Crop due to early rainfall.	

DECREASES.

Ginger	352'08 tons.
There was little doing in the Calcutta market in this staple during the month.	
Jute	1,899'04 tons.
Calcutta market dull and transactions limited.	
Seed	666'68 tons.
The market for all descriptions of seeds seems to be more or less dull.	
Tobacco	366'40 tons.
1,067'42 tons of tobacco were carried during the month under notice against 1,463'91 in the corresponding period last year, showing a decrease of 27'08 per cent.

DALTON MEMORIAL SCHOLARSHIP.

GENERAL DEPARTMENT—EDUCATION.

Darjeeling, the 21st June 1886.

RESOLUTION.

READ—

An endorsement from the Director of Public Instruction, No. 3171, dated the 17th May 1886, submitting a letter from Baboo Rakhal Dass Halder, Honorary Secretary, Dalton Memorial Fund.

*The Committee of the Dalton Memorial Fund offer to make over to Government a sum of Rs. 1,575-12-5 to found a scholarship, to be called the "Dalton Memorial Scholarship," to perpetuate the memory of the late Major-General E. T. Dalton, C.S.I., who was for a long time Commissioner of the Chota Nagpore Division. The donors desire that the interest of the fund may be appropriated for the award of a scholarship of Rs. 5 a month, every second year, to the aboriginal student residing permanently in Chota Nagpore, who is most successful in the Entrance examination of the University of Calcutta, the scholarship being made tenable for two years at the Patna College at Bankipore. It may be awarded in addition to any Government scholarship to which the student may be entitled.

The Lieutenant-Governor accepts the offer, and tenders his thanks to the Committee of the Dalton Memorial Fund, and to the other subscribers, for their appropriate recognition of the distinguished services of the late Commissioner of the Division.

The Deputy Commissioner of the district of Lohardugga will be the administrator of the fund.

ORDER—Ordered that this Resolution be published in the *Calcutta Gazette*, and that copies of it be forwarded to the Director of Public Instruction for information, and for communication to Baboo Rakhal Dass Halder, and to the Accountant-General for information.

By order of the Lieutenant-Governor of Bengal,

P. NOLAN,

Offg. Secretary to the Government of Bengal.

RESOLUTION ON THE ANNUAL REPORT OF THE ROYAL BOTANIC GARDEN, FOR THE YEAR 1885-86.

MUNICIPAL DEPARTMENT.—MEDICAL.

Darjeeling, the 22nd June 1886.

RESOLUTION.

READ—

Resolution on the Annual Report of the Royal Botanic Garden, Calcutta, for the year 1885-86.

The establishment were engaged in keeping up as high a standard of cultivation and arrangement as possible amongst the plants in the conservatories and grounds. The show of orchids was excellent, and the general appearance of the garden was very satisfactory. The river frontage, which had suffered from erosion, was protected by a facing of broken brick metal, and is now considered fairly secure.

2. A large quantity of mahogany seed was received during the year from Kew and Jamaica. Much of this was distributed, and the remainder having been sown in the garden, yielded about 20,000 seedlings. Other timber plants of useful sorts were grown for distribution. Dr. King reports that a year's further experience confirms him in the belief that the paper mulberry tree (which supplies the material from which the *tappa* cloth of Polynesia and the bulk of the paper of China and Japan are manufactured) finds a congenial soil in Bengal. The bark of this plant is considered by English paper-makers to be nearly the best of paper fibres. The utilization of the fibre of the common plantain for paper-making has been rendered possible by the invention of a machine patented by a retired officer of the Madras Army.

3. The herbarium attached to the garden received material additions during the year. Valuable specimens were contributed by Mr. Kunstler from Malaya, by Mr. Pantling from the Eastern Himalayas, by Mr. Duthie from Kumaun, by Mr. Gamble from Madras, and by Messrs. Clarke and Mann from Assam and the Khasia Hills. Interesting contributions were also received from Mr. Boissien, Sir J. Hooker, Mr. Talbot (Canara Forests), Mr. Ellis (Chittagong Hill Tracts), Baron Von Mueller of Melbourne, Professor Engler of Breslau, Dr. Cooke (Poona), Dr. Giles, the Naturalist with the Gilgit Expedition, Dr. Treub (Java), Mr. Cartes (Penang), Mr. Hallet (Singapore), Mr. Campbell (Manbhoom), and Major Sedgewick.

4. Fifty-three thousand seven hundred and fifty-two plants were issued and 9,251 plants were received during the year; 3,92 packets of seeds were distributed and 914 packets were received.

5. The Lloyd Botanic Garden at Darjeeling is reported to be recovering from the ravages of the cockchafer grubs. The landslips from the Sanitarium Hill, which used to cause much damage, have ceased. Dr. King was in communication with the Darjeeling Municipality for the resumption of the plot of land situated between the Eden Sanitarium and the Botanic Garden, to be worked as a vegetable garden for the benefit of the station.

6. The expenditure on the Calcutta Botanic Garden amounted to Rs. 69,870, there being a set-off of Rs. 1,091 realized from the sale of surplus plants. The expenditure on the Lloyd Botanic Garden at Darjeeling amounted to Rs. 7,372, while the sale of surplus plants yielded Rs. 741.

ORDER.—Ordered that a copy of this Resolution and of the Report be submitted to the Government of India, in the Revenue and Agricultural Department, for information.

Ordered also that a copy of this Resolution be forwarded to the Superintendent of the Botanical Gardens for information.

By order of the Lieutenant-Governor of Bengal,

R. H. WILSON,

Offg. Secretary to the Government of Bengal.

The 29th June 1886.—The following report on the working of the Licensed Warehouse and Fire Brigade Act, 1883, in Calcutta for 1885-86 is published for general information.

R. H. WILSON,

Offg. Secy. to the Govt. of Bengal.

No. 16, dated Calcutta, the 12th June 1886.

From—The Hon'ble H. L. HARRISON, C.S., Chairman of the Corporation of the Town of Calcutta,

To—The Secretary to the Government of Bengal, Municipal Department.

I HAVE the honour to submit the following report under section 30 of Act IV (B.C.) of 1883 of the Jute Screw and Warehouses in the Town of Calcutta for the year ended 31st March 1886.

2. At the close of last year there were 72 sanctioned warehouses on the register within the limits of the town. Four new licenses, viz., for No. 98-1 Sobha Bazar Street, 193, Durmahatta Street and 58 Strand, 11 Hurro Chunder Mullick's Street and 44 Manick Bose's Ghat Street, were sanctioned during the year. These make up the total number of warehouses to 76. Of these, the licenses of five warehouses were cancelled during the year for default of payment of license fees, thus reducing the number at the end of the year to 71, of which a complete list, arranged according to the Acts under which they were originally licensed, is appended to this report.

3. Six applications were received during the year, five for licensing existing godowns for storage of jute, and one to rebuild an existing godown. Of these six applications, three have been sanctioned, one was rejected for want of sufficient cart space, and two have been withdrawn. The licenses for the two jute warehouses, about which mention was made in the last annual report as being under consideration, were subsequently granted.

4. The license fees realised during the year from these 71 warehouses amounted to Rs. 22,487-8 or Rs. 787-8 less than last year. This falling off is owing to the assessments of some of the warehouses having been reduced, and the owners of certain other warehouses not having renewed their licenses.

5. There were two cases of fire in jute warehouses during the year, one at Nos. 31 to 31-4 Manick Bose's Ghat Street, and the other at No. 43, Nimtollah Ghat Street. There was one prosecution during the year, the occupier of Nos. 8 to 8-8, Sobha Bazar Street was fined Rs. 10 before the Magistrate for drying jute upon the roof of the godown.

6. The subjoined statement will show the receipts and expenditure of the Jute Warehouse Fund during the year under review.

Abstract account of Receipts and Disbursements of the Jute Warehouse Fund of 1885-86.

TRANSFER OF THE MANAGEMENT OF CERTAIN GOVERNMENT COLLEGES TO LOCAL BODIES.

GENERAL DEPARTMENT—EDUCATION.

Darjeeling, the 18th June 1886.

RESOLUTION.

READ—

Letter No. 7102, dated 7th November 1885, from the Officiating Director of Public Instruction, Bengal.

Letter No. 2877, dated 29th April 1886, from the Officiating Director of Public Instruction, Bengal.

Re-read—

Paragraph 10 of the Resolution of the Government of India, in the Home Department, No. 1—60, dated the 3rd February 1882 (under which Resolution the Education Commission of 1882-83 was appointed). Recommendations on the subject of the transfer of the management of certain Government Colleges to the local bodies, contained in Chapter VIII, section 10 of the Report of the Education Commission, and the Resolution of the Government of India, Home Department, thereon, No. 10—309, dated the 23rd October 1884.

Paragraphs 16 and 17 of letter No. 2285T—G, dated 25th September 1884, from the Government of Bengal, addressed to the Government of India, on the subject of the Report of the Education Commission.

Paragraphs 13 and 33 of Resolution No. 10—309, dated 23rd October 1884, by the Government of India, in the Home Department, on the above-named Report.

Paragraph 4 of letter from the Government of India, in the Home Department, No. 3280, dated 28th October 1884.

Paragraph 2 of letter No. 9427, dated 30th December 1884, from Mr. C. B. Clarke, Officiating Director of Public Instruction, Bengal.

Paragraph 7 of letter No. 229, dated 15th June 1885, from the Government of Bengal, addressed to the Director of Public Instruction, Bengal.

The Government of India, in the Resolution appointing the Education Commission of 1882, expressed a desire to offer every encouragement to native gentlemen interested in the subject to come forward and assist even more extensively than they had done previously in the cause of public instruction, considered necessary to secure that freedom and variety which are essential conditions in any sound and complete educational system. The Resolution continues:—

“The Government is ready therefore to do all that it can to foster such a spirit of independence and self-help. It is willing to hand over any of its own colleges or schools in suitable cases to bodies of native gentlemen who will undertake to manage them satisfactorily as aided institutions; all that the Government will insist upon being that due provision is made for efficient management and extended usefulness. It will be for the Commission to consider in what mode effect can most fully be given to these views, and how the grant-in-aid system may best be shaped so as to stimulate such independent effort, and make the largest use of the available Government funds.”

2. The Education Commissioners, in discussing the subject, observed that if, as had been shown, private enterprise even now produces results which are found by ordinary tests to be by no means unsatisfactory, and produces them at an average cost in colleges of one-eighth, and in secondary schools of one-fourth the amount spent on each pupil in departmental institutions, it does not seem unreasonable to hope that it will at some future period meet all, or all except the very highest, educational wants of the community at an expense to public funds that will be little more than nominal. They were in favour of a gradual and cautious withdrawal of the State from the immediate management, as distinguished from the control, of colleges, and their specific recommendations were as follows:—

“That in dealing with the question of the withdrawal of Government from the management of existing colleges, these colleges be regarded as divided into three classes, viz.—

- (1) Those from which it is premature for Government to consider the propriety of withdrawal on the ground that they are, and will long continue to be, the institutions on which the higher education of the country mainly depends.
- (2) Those that might be transferred with advantage, as a measure promising useful political results, to bodies of native gentlemen, provided the new managers give satisfactory guarantees that the colleges will be maintained (a) permanently, (b) in full efficiency, (c) in such a way as to make it adequate for all the wants of the locality.

- (3) Those which have been shown to be unsuccessful, or of which the cost is not of proportion to the utility, and from which Government might advantageously withdraw even with less stringent guarantees for permanent efficiency. Such colleges should be closed if, after due notice, no local body be formed to carry them on with such a grant-in-aid as the rules provide."

* * * We have therefore no hesitation in recommending that the Government of Bengal be requested to consider the propriety of dealing with the Rajshahye and Krishnagar Government colleges on the principle applicable to the second class, and with the colleges at Berhampore, Midnapore, and Chittagong on the principles applicable to the third class, as suggested by the Bengal Provincial Committee.

3. In the Resolution recorded by the Government of India in the Home Department, under date the 23rd October 1884, on the report of the Commission, it stated that—

"The Government of India accepts the cautious and well considered proposals of the Commission on the subject of the gradual withdrawal of the Government from the charge of institutions of a high order, and especially from colleges. These recommendations are quite in accordance with the policy of Government as explained in paragraph 10 of the Resolution appointing the Commission. It is left to the Local Governments to give effect to the recommendations on this subject gradually and as local circumstances permit. It is, as has been repeatedly declared, in no degree the wish of the Government of India to discourage high education in any way whatever. On the contrary, it believes it to be one of its most important duties to spread and foster it. What it specially, however, desires is to secure assistance to the limited funds of the State by calling forth every available private agency in connection with every branch of public instruction. It is in connection with high education, and in view of the direct pecuniary advantages which it holds out to those who follow it, that the Government thinks it can most properly insist on the fullest development of the principle of self-help."

4. The Lieutenant-Governor took an early opportunity of intimating his agreement with the views expressed upon this subject by the Commission, and of instituting enquiries with a view to give practical effect to their recommendations. An application recently received from Narail, in the district of Jessore, for the establishment at that place of a college on the grant-in-aid system, is receiving the favourable consideration of Government, and it is hoped that such an institution upon an independent basis will be opened before the end of the current year. The colleges of Rajshahye and Krishnagar will be transferred only in case any body of native gentlemen can give adequate guarantees for permanent and efficient management, and as yet no arrangement under such conditions has been possible. It has been represented, with regard to Chittagong, that the town is so isolated and cut off from other centres of education that there are good reasons for maintaining a college in it, whether a local body comes forward to undertake the management or not. In all these cases, while inviting offers from residents of position, it is necessary to wait until public opinion has matured, and the change recommended can be effected with the cordial co-operation of all concerned. In the meantime attention of public officers is drawn to the following passage in the report of the Commission as indicating the attitude they should at present adopt:—

"Of course a Director has no means of compelling private parties to come forward, and in ordinary cases we are not prepared to recommend the closing of departmental institutions which local effort is not willing to provide for. But a Director, and still more a Government, can do much to influence public opinion, and patient persistence in carrying out the policy of withdrawal whenever a suitable opportunity occurs will doubtless make it generally felt in course of time that all should co-operate in such measures who are capable of taking broad and comprehensive views of popular education and its true necessities."

5. The Midnapore College dates its existence from January 1873, when the people of the district, with much public spirit, subscribed a sum of Rs. 60,000 for the purpose of improving the status of the zillah school; and in consideration of this fact Sir George Campbell, in sanctioning the establishment of the college and law classes, fixed the Government grant at Rs. 3,000 a year for the following five years. These classes were to be maintained from a sum of Rs. 3,000 representing interest on endowments, and fees estimated at Rs. 1,200, the Government grant of Rs. 3,000 being devoted to defraying the expenses of the school department alone. The charges properly debitable to the college largely exceeded the estimated Rs. 4,200; and on a redistribution of the expenditure between the two departments in 1878, it was ascertained that, while the College Department was working at a loss of Rs. 1,600 a year,

there was an annual profit in the School Department of over Rs. 3,000. The Government grant was then redistributed, Rs. 2,000 being assigned to the college and Rs. 1,000 to the school. The limit of Rs. 2,000 for the college, however, was not very strictly observed, and the Government contribution to the College Department increased, with increase of expenditure, from Rs. 2,077-1-4 in 1880-81 to Rs. 2,850-2-8 in 1883-84. In 1884-85 large reductions were effected, and the Government grant dropped to Rs. 623-8-6 in that year, and to Rs. 406-15-7 in 1885-86. The receipts from interest on endowments and from fees in 1885-86 were Rs. 2,912-10 and Rs. 1,649-11 respectively, or Rs. 4,562-5 together; and as the total expenditure was only Rs. 4,969-4, it appears that the income from these two sources is almost sufficient to meet all the current expenses of this college, the amount contributed by Government during the past year having amounted to little more than 8 per cent. of the whole receipts.

6. The School Department of this institution, known as the Midnapore Collegiate School, has hitherto received a fixed annual grant of Rs. 1,000; and its total income, including the grant, in 1885-86 was Rs. 7,282-1, while the expenditure amounted to Rs. 6,813-14-3. The Municipal Commissioners of Midnapore have now offered to take over the management of the Midnapore College without making any reference to the school; but it has been strongly urged by the District School Committee, whose arguments are emphatically endorsed by the Inspector of Schools and the Director of Public Instruction, that the collegiate school should go with the college. It is represented that they are in fact two departments of one institution, sharing the expenses of a common establishment, viz. the head pundit, the clerk, the librarian, and menial servants; sharing also the same library, and working on the same premises. It is clear to the Lieutenant-Governor that, under these circumstances, division of management would only lead to grave inconveniences; and there appears to be no objection to transferring the school, as well as the college, to local management. The Education Commission recommended that all Directors of Public Instruction should aim at the gradual transfer to native management of Government schools of secondary instruction (including schools attached to first or second grade colleges), whenever the transfer could be effected without lowering the standard or diminishing the supply of education, and without endangering the permanence of the institution transferred. The Commission further advised that the experiment should begin with schools which had already won a high position, and laid down the following test:—"The fact that any school raises more than 60 per cent. of its entire expenditure from fees to be taken as affording a presumption that the transfer of such school to local management can be safely effected." This test, which was accepted as reasonable by the Lieutenant-Governor, has been fully satisfied in the case of the Midnapore Collegiate School.

7. The average sum required from Government by the college during the last two years has been Rs. 514; but the Lieutenant-Governor recognises the fact that the expenditure, especially on contingencies, must vary from year to year, and to provide for possible increases he is willing to allow a net grant of Rs. 600 to the College Department. He is also prepared to continue the present grant of Rs. 1,000 to the School Department. Both grants will be made for three years, after which period they will, if necessary, be revised.

8. The Lieutenant Governor is assured that the Midnapore Municipality, or a body constituted under section 64 of the Local Self-Government Act, 1885, will be willing to assume the management of both the college and school on the terms above indicated. The Lieutenant-Governor therefore will be glad if the Director of Public Instruction will take the earliest opportunity of giving effect to the transfer of the double institution on the conditions stated in the present Resolution.

9. The Berhampore College was first opened in 1853. It was raised in 1865 to the status of a full college teaching the B.A. course, but in 1872 it was reduced to a lower class, teaching only up to the F.A. standard, on the ground that the Calcutta and Hooghly Colleges would suffice for such of the Berhampore students as might desire a more complete education. In 1879 it was noticed, in the Government Resolution on the Educational Report for 1878-79, that the number of students had fallen to 32, and that each of these cost the Government

Rs. 605 a year—about twice the average expense at a Government college. The question of the abolition of the institution was then taken into consideration; but although it appeared that this step would set free funds which might probably have been employed elsewhere with greater benefit to the educational needs of the province, the Government was unwilling, having regard to the past history of the college, and the feeling of the people of Moorsshedabad on the subject, to adopt the extreme measure of final closure. The opportunity was, however, taken to make certain changes in the establishment with the view of at once increasing efficiency and diminishing expenditure. The effect of these reforms was to reduce the cost of education to a nearer approximation to the provincial average, and in 1884-85 the average total cost of educating each scholar was Rs. 376, the cost to Government being Rs. 253.

10. The number of students at the Berhampore College continues to be much the same as in 1878-79, and the proportion of the expense of their education borne by the State is still excessive. The monthly cost of maintaining the institution is Rs. 1,185, and the income derived exclusively from fees is only Rs. 167. In this case no direct offer has as yet been received from any local body to take over the charge of the institution, but it is understood that proposals for that purpose may soon be made. Government will be prepared to give to any responsible and suitable managers the maximum grant-in-aid allowed by the rules, and to make over considerable endowment funds for a hostel, as well as for buildings and for scholarships in connection with the college. There is a school attached to the college, the management of which should be transferred at the same time and on the same conditions.

11. In pursuance of the policy indicated by the Education Commission, and affirmed by the Government of India, it will be necessary, in the Lieutenant-Governor's opinion, to close the Midnapore and Berhampore Colleges if no arrangement can be made before the 1st of May 1887 for the transfer of their charge. It is thus left to those interested to determine for themselves whether these institutions shall continue to exist, and the Lieutenant-Governor confidently anticipates that the public spirit and interest in high education, for which both the important districts immediately affected are remarkable, will be found equal to the occasion.

The mean pressure, temperature, &c., are deduced from the traces of the Barograph and Thermograph, and from observations made at 6h, 10h, 16h, and 22h.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the New Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard Newman's No. 84, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

o overcast, g gloomy, d drizzling rain, t thunder, p passing temporary showers.

on for the past ten years. The variations are negative when the mean for the week is less than the corresponding normal mean, and positive when greater. The number denoting cloud amount represents the part of the sky covered, the whole sky being denoted by 10. Under the head "District Observations" for the period in question during the past 12 years. The means of the districts are the numerical averages of the rainfall returns received from one on which at least hundredth of an inch fell.

Explanation.—Indicates that no rain has fallen. If the return for any day has not been received, the corresponding space is left blank. If any of the stations are wanting, the corresponding spaces in the total rainfall columns are left blank.

Saint Uta, the 29th June 1886.

**SUMMARY OF THE METEOROLOGICAL AND RAINFALL OBSERVATIONS
TAKEN IN BENGAL FOR THE WEEK ENDING FRIDAY, THE 25TH OF
JUNE 1886.**

THE report for the preceding week dealt with the formation and advance of the cyclonic storm, which had generated at the head of the Bay from the 13th to the 15th, and which had steadily advanced in a north-westerly direction till it reached the Bikaner desert on the 20th, where it finally broke up. The storm in its advance brought up an advance of monsoon winds to the whole of Bengal, and practically this was the commencement of the rains properly so called, and the close of the past week was marked by heavy rainfall. This rainfall has continued for the greater part of the week, but the south-easterly monsoon current has been gradually but steadily reducing in strength, and consequently the rainfall has become lighter and lighter. The south-easterly winds from about the 22nd instant have also been gradually replaced by more or less westerly winds, and at the close of the week south-westerly winds were reported generally at the southern stations, though easterly winds were still reported from the northern stations. The interaction between these two opposing wind systems has in a few districts given rise to decidedly heavy rain, but, speaking generally of the whole province, the rainfall has been decidedly lighter than is usual at this period of the year, and it would appear that up to the present time the Bay of Bengal branch of the monsoon has been more feeble than usual.

With the advance of the storm inland at the commencement of the present week, pressure rose rapidly over the whole province, and on the 19th at some stations the increase nearly equalled a quarter of an inch. After the disappearance of the cyclonic storm, the variations of pressure became of the usual oscillatory character, but the tendency of the oscillations has been decidedly towards an increased pressure, consequently the mean pressure for the present week has been decidedly above the normal. During the previous week the mean pressure for the whole province had been 0.072" in defect of the normal, while during the present week not only has this large defect been neutralized, but an almost corresponding excess has been brought about, and the mean pressure for the whole province has been 0.07" in excess of the normal.

With the fairly general rainfall which has occurred during the week temperature has continued low, and all districts, except East Bengal and North Behar, have registered temperatures decidedly below the normal. The defect has been very considerable in South Behar, where it equals 3.1°, it has also been considerable in Chutia Nagpur and Orissa, where it is between 1° and 2°. In South-West Bengal temperature has been slightly (0.1°) below the normal, while in East Bengal and North Behar it has been slightly above it. For the whole province the mean temperature has been 1.0° in defect of the normal.

Rainfall has been general throughout the week, and most districts have received rain on from three to five days of the week. Notwithstanding the frequency of the showers, the rainfall over a large part of the province has been decidedly defective, particularly in East Bengal, South-West Bengal and Chutia Nagpur. The diminished fall does not appear to have been so much due to the absence of rainy days or the absence of showers, but rather to the lightness of the showers themselves. This is of course shown by the fact that the number of rainy days over the province has been more than equal to the normal, while the average rainfall has been decidedly deficient. The divisions of North Bengal, North Behar, South Behar and Orissa have received a rainfall distinctly but generally slightly in excess; in South-West Bengal the fall has only been about one-half the usual amount, while in East Bengal it has been about three-fourths of the normal and in Chutia Nagpur the fall has only equalled about two-fifths of the usual amount.

The division which is in largest excess is South Behar, which has received 2.79 inches of rain on three days against a normal fall of 1.91 inches, also on three days. In North Behar there has been a fall of 2.67 inches on 3.3 days against a normal fall of 2.47 inches on 3.2 days. North Bengal has received a fall of 5.58 inches on 4.7 days, while the usual fall is 5.01 inches on 4.6 days. In Orissa the fall has averaged 2.72 inches on 4.7 days, while the normal is 2.13 inches on 3.1 days. South-West Bengal has only received 1.28 inches of rain on 3.4 days, the usual fall being more than double this—2.64 inches on 3.9 days. East Bengal has averaged 3.03 inches of rain on 5.0 days, while the normal for the week is 4.29 inches on 5 days. Finally, Chutia Nagpur has received 1.06 inches of rain on 3.0 days, while the normal rainfall is 2.50 inches on 3.8 days. For the whole province, taking these divisions to be of equal value, the rainfall has been 0.26 inch or nine per cent in defect while the number of rainy days has been 3.9 against the normal 3.8 days. Some particularly heavy falls of rain were reported in North Bengal on the 23rd. Thus on this date in the Julpigoree district Alipur Duar reported no less than 15.58 inches of rain; Cooch Behar also reported 11.82 inches, and Matabhanga in the same district 13.84 inches of rain.

The following table gives the summary of the temperature and rainfall data of each of the seven meteorological divisions of the province for the week ending Friday, the 25th of June 1886:—

The mean temperature of the seven days

The extreme variation of temperature

The maximum temperature

The mean relative humidity

The total fall of rain from 20th to 26th June 1886

The mean temperature and humidity are obtained by applying to the mean of the 10a, 16h and minimum readings a correction dependent on the range, and derived from the hourly observations at the Surveyor-General's Office, Chowringhee, in past years.

METEOROLOGICAL OFFICE, INDIA;
Calcutta, the 28th June 1886.

A. PEDLER,
For Meteorological Reporter to the Govt. of India.

MEMORANDUM.

The chief features in connection with the vital statistics of the principal Municipalities in Bengal, for the week ending 12th June 1886, are the following:—

1. That births and deaths were registered in these Municipalities at the rates, respectively, of 16.0 and 22.8 per 1,000 of population as opposed to 14.8 and 20.2 per 1,000 in the preceding week ending 5th June, indicating an improvement in the registration of both events.

2. That the highest proportions of births and deaths were returned from the under-mentioned Municipalities:—

Births.			Deaths.		
		Ratio per mille.			Ratio per mille.
Chittagong	...	32.8	Gya	...	45.0
Mozufferpore	...	31.5	Patna	...	43.0
			Chittagong	...	30.5
			Durbhanga	...	30.0

3. That the principal diseases on record proved fatal at the following rates in comparison with the rates of the preceding week:—

						Ratio per mille during the weeks ending—	
						12th June 1886.	5th June 1886.
Cholera	2.4	1.4
Small-pox	1	1
Fever	8.7	9.4
Bowel-complaints	3.5	3.5
Injury	9	5
Other causes	7.2	5.3

The above figures indicate mainly that there was a sensible increase of mortality from cholera and the maladies recorded under the head of "Other causes."

4. That of the diseases specified above, excluding small-pox and injury, the mortality from which was nowhere high, and fever and bowel-complaints which proved conspicuously fatal only in Gya and Patna towns at the rates of 24.6 and 13.3 per 1,000 of their population, respectively, cholera and "other causes" caused the highest mortality in the following Municipalities:—

Cholera.			Other causes.

BOOKS.									
1885.	Pages.					Rs. A. P.			
July, 26th	77	8vo	1st	1,000	Printed	1 8 0	Kshetra Mohan Goswami, 30, Chakradanga Lane, Calcutta.	This is a treatise on the musical instrument called Israr. Directions are given for playing different airs upon this instrument. The author says in the preface that the object of his publication is to help educated natives to acquire a knowledge of the musical art in which they now evince a warmer and more practical interest than they had done up to very recent times.	4358
June, 8th	48	8vo dy.	1st	1,000	ditto	0 8 0	Dakarathi Nandi, Calcutta.	Gives notation tables for playing different musical airs in concert. This work is stated by the author to be the first of its kind in Bengali in relation to concert music.	4360
July, 7th	10	4to rl.	1st	1,000	ditto	2 0 0	Calcutta Art Studio, 185, Bow-bazar Street, Calcutta.	Chaitanya leaving home, Rama going into exile, and Rama at the residence of the chief of the Chandalas—these are the subjects of the three pictures given in this volume. The subject of each picture is briefly explained in verse.	4361
June, 28th	148	8vo dy.	1st	1,000	ditto	0 10 0	Gives directions for exhibiting various magical feats and wonders as performed by European adepts in the art.	4362
.. 23rd	86	12mo dy.	2nd	1,000	ditto	0 2 6	Mahendra Nath Datta, Rangpur.	Designed for vernacular schools.	4363

Aug., 23rd	91	8vo	1st	1,000	ditto	0 12 0	Brahmo Samaj of India Mission Office, 10, Upper Circular Road, Calcutta.	The story of Nanak's life down to his leaving home as a Sannyasi for the purpose of promulgating his religious opinions is related in this volume. The author has relied exclusively upon original Sikh works for materials for his book.	4365
Sept., 15th	244	8vo	3rd	750	ditto	1 0 0	Chiranjib Sarmá.	An elaborate work on the life of Chaitanya.	4366
Aug., 15th	132	12mo	1st	700	ditto	1 8 0	Sarat Kumar Biswas, 231, Upper Chitpur Road, Calcutta.	This is a very brief memoir of Her Majesty Queen Victoria. The writer thinks that its perusal will benefit all who will read it. The Queen is considered to be one of the brightest and loveliest female characters of the time and a profound feeling of love, loyalty, and reverence is expressed for her. The work is intended to be a memorial of Lord Ripon than whom no better or more beloved Viceroy has reigned in India.	4367
.. 17th	324	12mo	1st	1,000	ditto	0 12 0	Mahendra Nath Ray, Radhanagar, Hugli.	This is an interesting memoir of the distinguished Bengali writer Babu Akshaya Kumar Datta, based upon information derived chiefly from Babu Akshaya Kumar himself.	4368

July. 16th	154	12mo dy.	1st	500	ditto	0 12 0	Kailās Chandra Ghosh, Rāyanā, Burdwan.	Gives a history of Bengali literature from the time of the first Hindu poets Jayadeb, Bidyāpati and Chandidās. The history is divided into certain epochs or periods marked by the appearance of one or more writers of note and influence. The writings of the principal authors in each epoch are criticized, and the indications contained in them in regard to the character and condition of the Bengali people are touched upon. A connection is attempted to be established between the condition of Bengali literature in each epoch and the social and political state of the country during that epoch. The author's account is brought down to the time of Rammohan Roy.	4419
